PROFESSIONAL SUMMARY

Aspiring Data Analyst with strong skills in data analysis, visualization, and KPI-driven insights using Python (Pandas, Matplotlib, Seaborn), SQL, and Tableau. Proficient in exploratory data analysis and transforming raw data into meaningful business insights. Solid foundation in statistics and analytical thinking, with a focus on solving real-world problems through data.

EDUCATION

Bachelor of Technology (Data Science) Newton School of Technology, Rishihood University	2024 - 2028 Grade: 7.96/10.0
Intermediate (Class XII) Resonance Junior College	2023 - 2024 Grade: 92.0%
Matriculation (Class X) Pragathi Central School	2021 - 2022 Grade: 82.0%

PROJECTS

US Used Cars Market Analysis ([Github](#)) April 2026

- Built an **interactive Tableau dashboard suite (3 dashboards)** analyzing 28K Craigslist used car listings, uncovering market trends, pricing behavior, and regional demand patterns.
- Performed **data-driven pricing analysis** using features like mileage, condition, fuel type, and engine power, identifying key factors influencing vehicle price depreciation.
- Developed **market segmentation insights** on customer preferences (vehicle type, transmission, brand, region) with dynamic filters, enabling deeper exploration of listing behavior and demand trends.

Credit Default Risk & Portfolio Analysis ([Github](#)) February 2026

- Built an end-to-end **credit risk analysis framework** on a 10,000-record mortgage dataset (\$3.3B portfolio), identifying key default drivers using KPI modeling and multi-dimensional EDA.
- Designed an **interactive dashboard (11 visualizations)** in Google Sheets to analyze risk across LTV, region, loan type, and demographics, uncovering patterns like 88% default rate in 100% LTV loans.
- Delivered **data-driven underwriting recommendations** (LTV caps, regional pricing, dual-trigger approval model) projected to reduce default rate by 3% and mitigate \$150M exposure.

CERTIFICATIONS

Python Development Micro Degree Edyoda ([Link](#)) June 2024
Earned a certification in Python programming fundamentals, demonstrating proficiency in core Python concepts.

SKILLS

Computer Languages: TypeScript, HTML, CSS, JavaScript, Python, SQL

Data Tools: PostgreSQL, NumPy

Software Packages: Pandas, Matplotlib, Tailwind, Next.js, Tailwind CSS, Next JS, Prisma ORM, React, Node.js, Excel, Express JS, MySQL, MongoDB

Additional Courses: Data Structure

Soft Skills: Decision-making, Critical Thinking, Communication Skills

Others: Git and Github, Postman, Spreadsheet, UI/UX, Problem-Solving, Bash Scripting, Framer Motion, Tableau, Matplotlib seaborn

EXTRA-CURRICULAR ACTIVITIES

- Winner of **Hack The Hunt** (Treasure Hunt) event organised by the Society of Cyber Security (SOCS), focused on problem solving and coding challenges.
